Subject: RE: R8 DI Short term Funding for Dewey Burdock Final Permit

Hi Ben: I am checking with OGWDW for this PRC since they have been using their EPM funds to support our permitting work.

Douglas

Douglas or Cynthia,
Could you please identify which **PRC** is currently being used as EPM funding for the Cadmus contract?

Thank you, Ben

My understanding is that our PWSS STAG money MUST be used for UIC DI purposes, but that EPM \$ are more flexible and could be used for any programmatic purpose. Can one of you explain why it matters what type of funds were used previously?

Hi Douglas and Cynthia –

While these are different types of funds, could we still work out different accounting? For example, if we use \$100k of STAG funds for the Cadmus contract now and are later reimbursed with EPM\$, could we then use those EPM\$ to forward fund SEEs, for example, or another part of the regular UIC DI budget where we had redirected the STAG\$?

Thanks,
Sarah

Yes – we would use our amendment package that we put together as the vehicle for adding more money into the existing WA-96. The amendment had been on hold for a while, waiting until we identified the source of money.

Hi Bruce/Valois/Cynthia: to more quickly bring much need additional Cadmus contractor hours to bear for our Dewey Burdock permitting work, Sarah has asked us to consider using our own UIC DI STAG funds with the understanding that OGWDW would reimburse these funds once their OW operation plan is in place (we have been waiting for at least a month for access to these HQs funds).

If we proceed with this interim Regional funding strategy, can you please confirm that we would do so through our existing WA 96 (see Bill's question below)?

Thanks,

Douglas

Subject: RE: Dewey Burdock - schedule for final permits

Hi Douglas,

We are still working on finalizing the OW operation plan. I think we are close (but I don't know what the timing would be). At this point, I think right now your suggested approach might be the best approach. Question for you regarding that option, would you be doing the work through your work assignment WA-96?

Cheers
Bill

Subject: RE: Dewey Burdock - schedule for final permits

Greetings Colin: can you give us an update on the allocation of Cadmus contract funds to support Dewey Burdock permitting work?

As we have current need of additional support from Cadmus, we would like to draw upon these contractual hours asap. If additional funding from OGWDW is not imminent, we ask that you consider accepting Region 8 funding now with the understanding that OGWDW reimburse us later when your funds become available.

Thanks!

Douglas

I wish there was something I could share with you. Higher level management is still working on the budget. I believe I have said that we have been speculating we will hear something about the budget in March, or end of Feb at the earliest, but that's still a guess. I can see you are looking to put the money to use right away and I will let you know the moment I hear something. Assuming we get what we are expecting, I would still rank your work at the top of the ideas submitted so far.

Thanks!

Thanks for letting me know. That is sort of a bummer because I already have technical issues in the queue for Cadmus to start working on, like an eval of the organified metals comment. I am so grateful for HQ support on this & want to be a good sharer of the bounty! And I think we are still OK on time.

You probably saw my email to Mike indicating I will amend the amendment and we will probably need even more money.
